SUMMARY

Results-oriented Information Technology graduate with a comprehensive academic background in IT and a deep passion for applying technology to resolve complex challenges. Proficient in a range of programming languages and skilled in systems analysis, I bring a strong foundation to any IT team. Eager to contribute my knowledge and skills to drive technological innovation and support mission-critical projects. Adaptable and quick to learn new technologies, I thrive in high-paced, collaborative environments.

PROJECTS

Turf Management Website

08/2022 - 02/2023

The concept behind creating this project is to provide a platform where users can book turf facilities and schedule training sessions with coaches. This platform aims to streamline the booking process for sports enthusiasts, making it convenient for them to access and reserve turf spaces for recreational or training purposes

VOLUNTEERING

Secretary

Non Profit Organization

04/2022 - 04/2023

As Secretary of the Nonprofit Organization, I played a pivotal role in organizing and managing the annual celebration of Various Cultural & Humanitarian aids. Throughout the year, we organized a wide range of events, including cultural celebrations, blood donation drives, health checkups, and various other activities. This experience allowed me to develop valuable skills and contribute to the success of this cherished event. My responsibilities included: Event Coordination, Administrative Duties, Budget Management and many more
